

Portfolio and Trade Management for Modern Wealth Firms

FlyerFT provides cloud-native portfolio trading technology to over 1700 wealth managers, asset managers, enterprise RIAs, broker-dealers, TAMPS, custodians and technology partners.

Clients choose FlyerFT because we are easy to use, cost-effective and offer a range of options no one else can.

Solutions

Co-Pilot OMS & PMS

Co-Pilot is a comprehensive portfolio trading platform with robust API capabilities that centralizes portfolio and order management in a unified multi-asset application.

Flyer Trading Network

Connect and trade with major custodians, brokers and program sponsors across multiple asset classes through a single connected platform via our UI or APIs.

FIX Enterprise Software

A complete trading solution with a suite of software, integrations, development kits and full-service support to dramatically elevate your and capabilities.

Choose the model that fits your firm

I'm an RIA

Growth shouldn't add friction - but for most RIAs, it does.

Flyer helps you replace these roadblocks with automation, visibility and infrastructure built to scale.

I'm an Independent Broker Dealer

Legacy systems create complex complexity - and compromise growth.

With FlyerFT, you can grow confidently without compromising oversight or integration.

I'm an Asset Manager

Institutional growth often exposes operational fragility.

FlyerFT replaces these challenges with centralized control, automation, and networked scale.

Partnerships

Our reputation with leading fintech firms is unmatched

Built by Industry Operators

FlyerFT is led by executives who have built and operated trading infrastructure and portfolio and order management systems serving asset managers, wealth management firms, and their advisors. Their experience spans front-, middle-, and back-office platforms at firms such as BlackRock, Investnet, Bloomberg, JPMorgan, Barclays, AssetMark, MarketAxess, InvestCloud APL, and FactSet.

"FlyerFT provides trading tools, connectivity, and infrastructure for wealth management and equity markets, and has become the gold standard for integrated management softwares."

– Michael Kitces
